

MARYNA FROLOVA

Ugly project — Nikita, 2018

The basis of the artist's projects is the relationships, feelings, and experiences of people close to each other. In this way, Maryna Frolova helps the protagonists in the pictures to better understand their, sometimes unexpected for them, essence. In particular, works from the *Ugly project — Nikita* were created in close cooperation with the model. The main object of the shooting dedicated to the difference in the vision of beauty was a guy with an androgynous appearance. The series was created in a provincial city in Ukraine with a high level of xenophobia and homophobia.

BIO

Maryna Frolova (1977) graduated from the Faculty of Economics of Kherson National Technical University. Since 2008 she has been engaged in art photography. She is an exhibitor in Ukraine, Italy, Great Britain, and Sweden.
